## Adoption and Review

This Community Land Management Plan Overview was adopted by the Council on [date tbc].

The Council will review this Plan within three years of the adoption date, or otherwise as required.

For further information contact the Council’s Manager, Governance, Legal and Property on 8366 4507.

## What is Community Land? *Key Objectives*

Most land which is owned by councils, except roads, is classified as 'Community Land' under Section 193 of the *Local Government Act 1999* (the Act). Community Land includes parks and reserves, sporting facilities and civic and community buildings.

The Act places certain restrictions on how councils can use and dispose of Community Land. This includes the requirement for Community Land to have its classification as Community Land revoked prior to the land being disposed of (i.e. sold). Various public consultation requirements also attach to dealings with Community Land (including leasing) by councils.

The key objectives of the Council's Community Land Management Plans are to:

- clearly outline the Council's objectives for use and management of Community Land;
- guide the decisions of the Council and other government agencies in relation to the use and management of the Council's Community Land;
- provide accessible information to the community about Community Land within the City; and
- identify opportunities for efficient, equitable and innovative use of Council-owned land and facilities.

## What are Community Land Management Plans?

Pursuant to Section 196 of the Act, all councils must prepare and adopt management plans for Community Land within their Local Government Area.

These Community Land Management Plans must contain certain information, including the council's objectives and performance targets for management of the land. The adoption or amendment of a Plan (excluding minor administrative changes) requires community consultation.

Pursuant to Section 207 of the Act, councils must also keep a public register of all Community Land which is located within its Local Government Area. The register must contain the information prescribed by the Act (including, for example, the legal description of the land, its common name, and details of any lease over the land).

A copy of the Council's Community Land Register is contained within **Attachment A**.

The Council also maintains a Lease & Licence Register which contains the information required by Section 207 of the Act and Regulation 23 of the *Local Government (General) Regulations 1999*.

A copy of the Council's Lease & Licence Register is contained within **Attachment B**.

## Structure and Interpretation

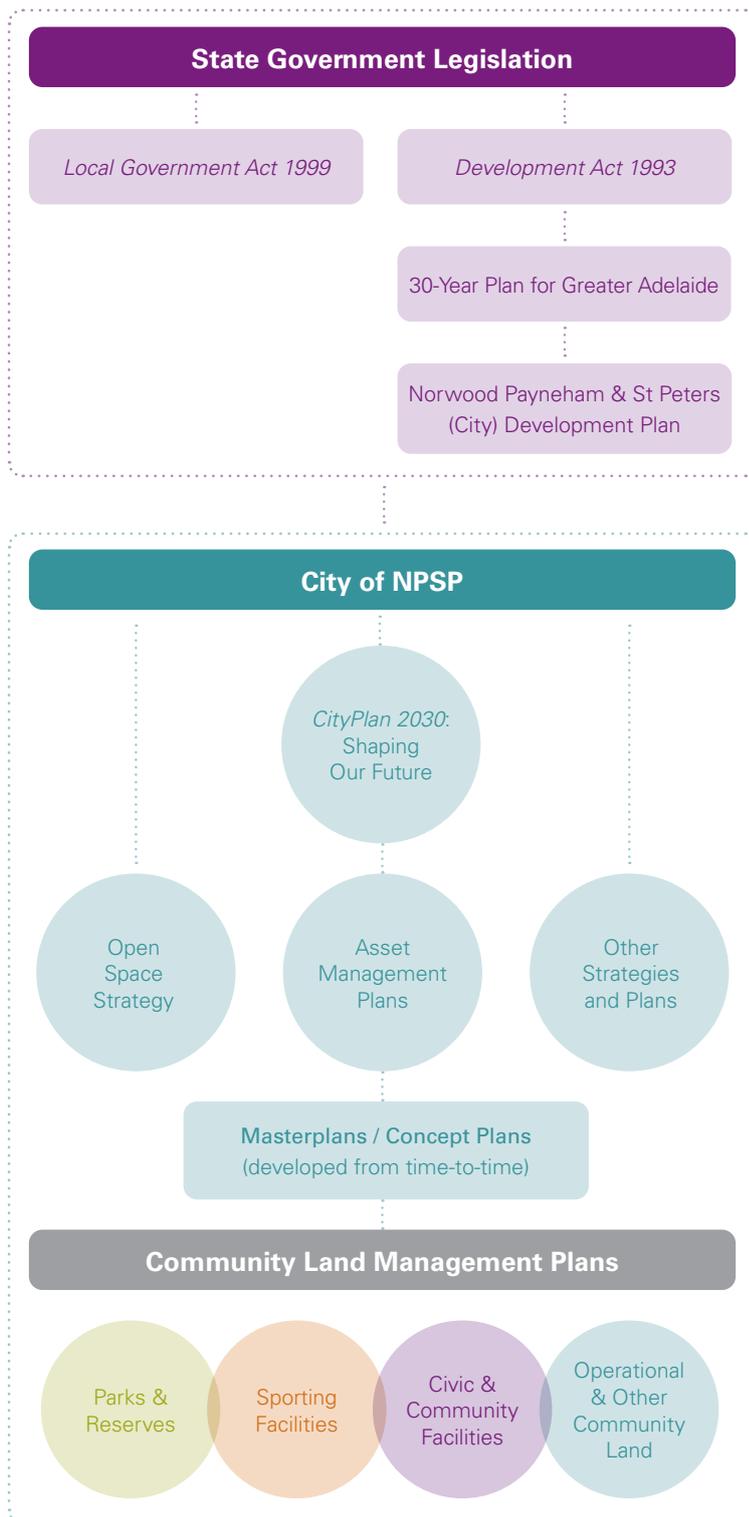

For the purposes of its Community Land Management Plans, the Council has identified four main categories of Community Land, each of which have their own Plan – parks and reserves, sporting facilities, civic and community facilities, and operational and other community land.

These four categories are derived from the primary function of the Community Land and its intended use and role as public open space in the City.

For instance, a Council reserve that includes community tennis courts alongside other recreational facilities has been classified as a reserve, rather than a sporting facility. Cruikshank Reserve and St Peters River Park are the exception and have been classified both as reserves and as sporting facilities. As such, the provisions of both Community Land Management Plans will apply to each of these parcels of land.

Together, the Council's four Community Land Management Plans form a comprehensive management strategy for all Community Land across the City.

## Legislative and Strategic Framework

The Council's Community Land Management Plans are part of a broader legislative and strategic framework, including State Government legislation and internal Council policies and strategies. Together, these documents govern the way Community Land across the City is used and managed by the Council.

The Council's Community Land Management Plans have been developed in accordance with and are consistent with the legislation and Council policies, strategies and management plans set out below, in addition to any other relevant legislation, regulations, codes of practice and guidelines as introduced or amended from time-to-time.

In the event of any inconsistency between the provisions of another Council plan or policy and a Community Land Management Plan, the other plan or policy will prevail.

These Community Land Management Plans will be updated to ensure consistency with other Council policies and strategies (including *CityPlan 2030: Shaping Our Future*) from time-to-time as required.

A brief description of some of the Council's key strategies and plans is set out below.

### ***CityPlan 2030: Shaping Our Future***

This is the Council's Strategic Management Plan, prepared in accordance with Section 122 of the Act. This plan sets the strategic direction of the City over the next 20 years and beyond, focusing on four key outcomes of: Social Equity, Cultural Vitality, Economic Prosperity and Environmental Sustainability.

### **Open Space Strategy**

This strategy provides a framework for the Council to effectively manage, maintain, enhance and develop its open space network for the benefit of a variety of stakeholders in the community.

### **Asset Management Plans**

These plans, as required by Section 122 of the Act, set out the Council's proposed strategies for the management, maintenance and replacement of the Council's major infrastructure and assets across their lifecycle. The Council maintains the following Asset Management Plans:

- Recreation & Open Space Infrastructure and Asset Management Plan;
- Community Buildings Infrastructure and Asset Management Plan;
- Roads, Footpaths and Kerb & Water Table Infrastructure and Asset Management Plan; and
- Stormwater Drainage Infrastructure and Asset Management Plan.

### **Other Strategies and Plans**

A variety of other strategies and plans are in place to provide direction for the development and use of key Council assets which are often situated on Community Land including, the Council's Access & Inclusion Plan, Swimming Centres Long-Term Strategy, Playgrounds Strategy and Tennis Facilities Strategy.

## *Our Community Land*

Within the City, there is a broad variety of Community Land that is regularly used by sports clubs and community groups, casual recreational users, local residents and visitors to our City.

The network of Community Land, including parks and reserves, community centres and libraries, sporting facilities and linear trails, provides a space for people to connect, learn and relax.

Community Land also contributes to the unique 'sense of place' in our City — a City which values and is recognised by its heritage, cultural diversity and natural environment.

The Council has 72 parks and reserves, 10 sporting facilities, 11 civic and community facilities and 26 parcels of operational and other community land.

### **Categories of Community Land**

The four categories of Community Land covered by the Council's Community Land Management Plans are as follows:

#### **Parks and Reserves**

Parks and reserves are characterised as areas of green open space open that are suitable for use by a broad cross-section of the community, usually for informal and passive recreational activities. They range in size from local 'pocket' parks to large linear parks and natural conservation areas.

#### **Sporting Facilities**

This category of Community Land includes both indoor and outdoor sporting facilities that are used primarily for formal and organised sporting activities. These facilities include buildings (e.g. clubrooms) and open space (ranging from ovals, to tennis courts and swimming pools). Sporting facilities may be used by sole user groups under lease arrangements or under shared-use or casual hire arrangements that also ensure public access.

#### **Civic and Community Facilities**

Civic and community facilities are Council-owned buildings which are operated to provide a civic or community purpose for the City, including activities such as Council administration, provision of community services and activities, and public meeting spaces. Some facilities are managed solely by the Council, while others are managed under leasing and licensing arrangements by various user groups.

#### **Other Community Land**

This category incorporates all other Community Land held by the Council for various operational purposes. This land is often comprised of small parcels of land that provide linkages between existing open space, physical barriers between the public road network and privately-owned land, or which operate as part of the Council's stormwater management system.

## Management of Community Land

Pursuant to Section 199 of the Act, the Council is required to manage its Community Land in accordance with any Community Land Management Plan for that land.

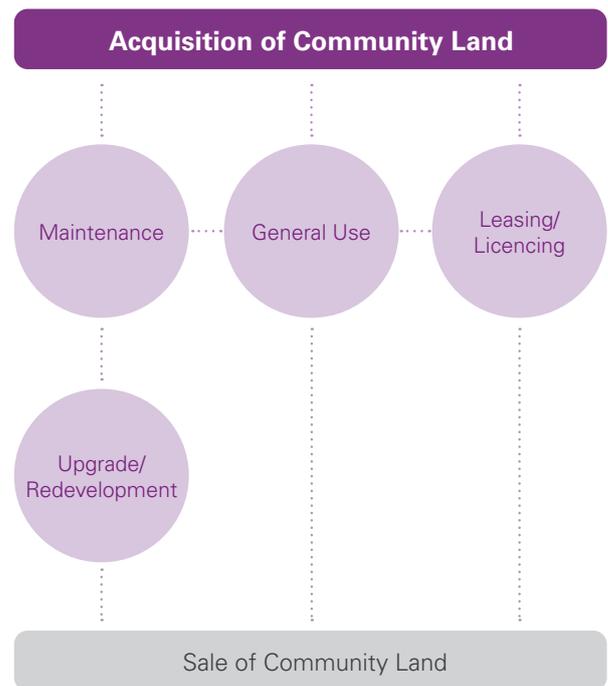

The management of Community Land includes all stages in the life cycle of that land, from creation or acquisition, to ongoing maintenance, upgrade and redevelopment, and disposal or sale. It also includes the use of that land by members of the local community, various groups and organisations, and the Council itself — whether under leasing, licencing or casual hire arrangements, or for the holding of community events.

The Act imposes various procedural requirements in relation to certain dealings with community land (including, for example, community consultation or revocation of community land classification prior to sale).

Each Community Land Management Plan contains Key Management Objectives which the Council will seek to manage all Community Land in accordance with. In addition, each Plan includes a Management Strategies table that contains the Council's specific objectives, strategies, performance targets and measures for management of that category of Community Land (e.g., parks and reserves), as required by Section 196(3) of the Act.

Each Plan also includes strategic management proposals planned by the Council over the next three to five years for specific parcels of community land (i.e. by way of Masterplan, concept plan and/or construction). This information will be updated from time-to-time as needed.

Some Community Land is subject to trusts, dedications, reservations and other restrictions which control how the land can be used. Where relevant, this information is included in the Community Land Register for that land.
