HANDCRAFTED AND ECO-FRIENDLY RUGS.  
CUSTOM SHAPED RUGS. LUXURY RUGS.

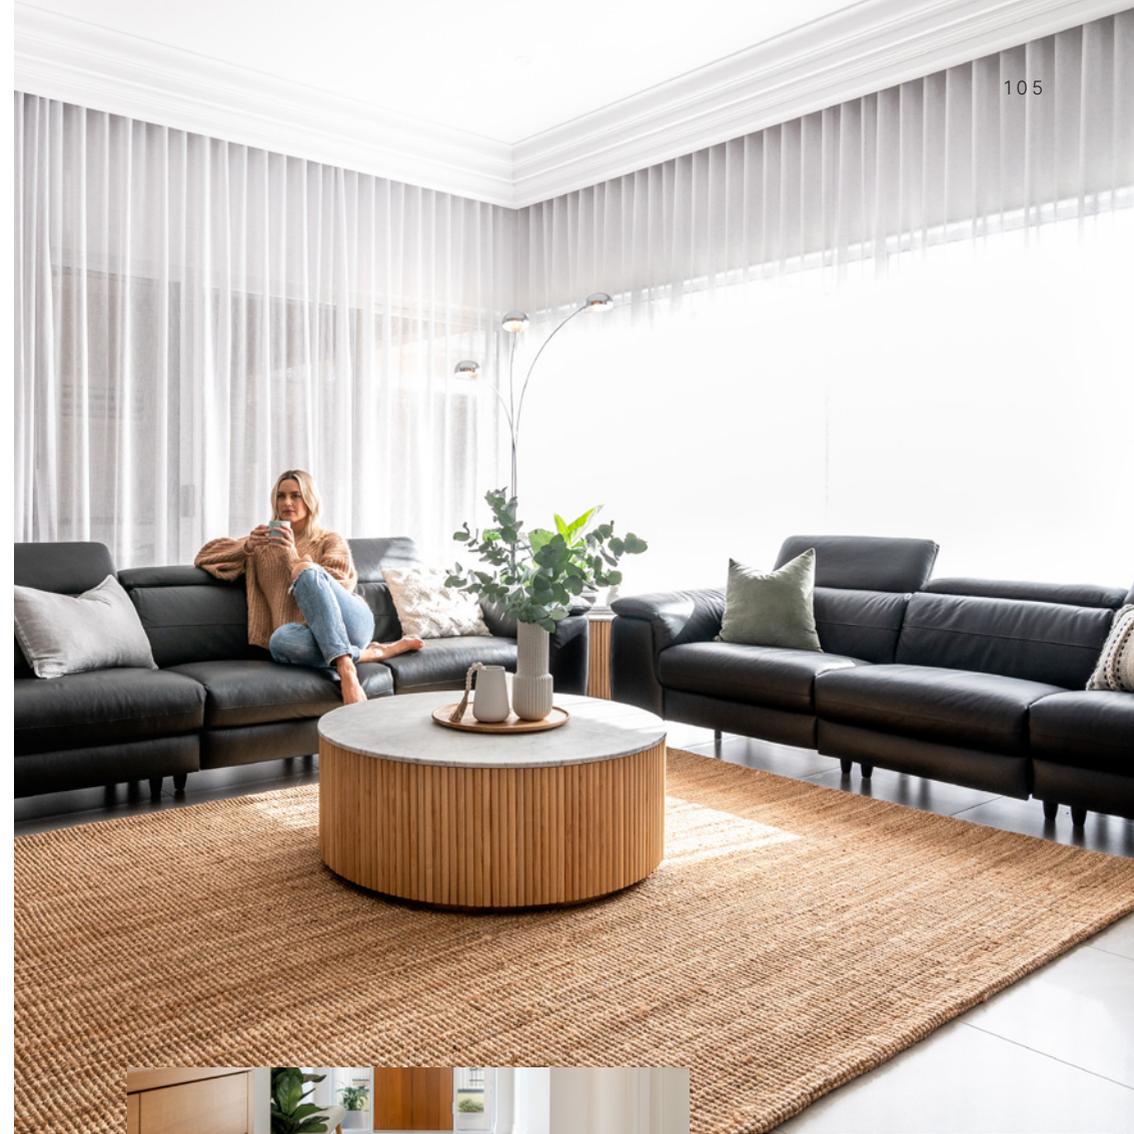

New kids on the block, Natural Rugs, launched their online business in May 2021, producing handcrafted, beautiful, eco-friendly rugs to counteract today's throw-away-culture.

Backed by over 30 years experience, Natural Rugs are Australian owned and proudly assemble all their rugs in their Stepney warehouse. Sourcing fibres from sustainable village industries throughout India and China, Natural Rugs use jute, seagrass, sisal, coir and wool fibres in their rug production. These fibres are derived from naturally occurring, recycled sources such as coconut husks, vegetable fibres, plants and textiles.

## Catriona Morgan, Co-Owner

*"Our rugs are designed to counteract today's throw away culture and stand the test of time" said co-owner Catriona. "In a world of fast fashion, product quality and durability can be low. The natural fibres we use for our rugs are incredibly tough and are perfect for high transit areas of your house."*

*In this busy modern age, objects crafted by the human hand are special and unique. Natural Rugs cut their rugs from reams of natural fibre material and stitch it to shape, with the option of luxury underfelt. "All of our rugs are handcrafted, so you know they'll stand the test of time, as we have given them the attention to detail, care and precision that a machine couldn't".*
