

## City of Norwood Payneham & St Peters Open Space, Playgrounds & Recreation Strategy - Community Survey

Open spaces are important in our urban environment. They provide places for people to meet, socialise, play, exercise and connect with nature.

The Council is pleased to announce that it is in the process of developing a new Open Space, Playgrounds & Recreation Strategy to help guide how it manages and invests in its open space, playgrounds and recreational assets over both the short and longer term to ensure that these spaces meet the needs of the Community.

As the first step in the process, the Council is undertaking a survey. This survey has been designed to understand how the Community uses the open space areas in the City of Norwood Payneham & St Peters, its preferences for different types of open space, what it believes are the benefits of open space to individuals and the community and what the Council needs to consider when planning for the future.

The information will be used to guide the strategic vision and directions of the Open Space, Playgrounds and Recreation Strategy.

The Strategy will not look at the design of individual parks, but consider how collectively they meet community needs.

For more information, please contact Keke Michalos on 83664555 or [townhall@npsp.sa.gov.au](mailto:townhall@npsp.sa.gov.au)
